

# Living Plant Necklace

**Step 1:** Get your supplies:

- 1 seed
- 1 small plastic bag
- 1 cotton ball
- 1 lanyard/ribbon
- Spray bottle to share

**Step 2:** Open your plastic bag.

**Step 3:** Place 1 seed and 1 cotton ball in the bag.

**Step 4:** Use a spray bottle to spray the cotton ball. You want the cotton ball to be moist, but you don't want the bag full of water.

**Step 5:** Clip your lanyard to the top of your plastic bag.

**Step 6:** Wear your living plant necklace, or hang in a sunny place at home.

**Step 7:** Keep the cotton ball moist, and watch your plant grow!
